# Our Technologies

*SnowPure: "We Don't Compete With Our Customers"*

## Electropure™ EDI Electrodeionization

Laboratory, Pharmaceutical, Hemodialysis, Semiconductor, Power

## ExcellMembranes™

**Ultrafiltration**

Specialty Separation Membranes

**Nanofiltration**

**Reverse Osmosis**

Silica Removal Membranes

**Ion-Exchange**

Cation/Anion

## Energy and Waste Savings

**DC** **ediPureSource™ DC** SnowPure High Efficiency Energy Saving DC Power Supplies

**GTM** Gas Transfer Membrane CO2 removal for efficient EDI operation

**UV** Ultraviolet disinfection, a unique design that reduces power usage by 90%

**ED** Electrodialysis, efficiently concentrates wastes and removes Impurities

**MVR** Mechanical Vapor Recompression, saves energy over evaporation and distillation

**EC** Electro Coagulation, coagulates contaminants without costly, dangerous chemicals

## Benefits of Using EDI

- Continuous Process—no upsets
- Operating cost is minimized
- No hazardous waste, no associated costs and risks
- No regeneration acid or caustic
- Flexible—easy to expand a modular EDI system
- Reliable—no recirculation system components to fail

## Doing business with SnowPure

- Electropure™ EDI technology was born in 1977, before Ionpure®
- SnowPure is privately held
- SnowPure is your partner, not a competitor
- High quality Electropure™ EDI training and OEM support

## Electropure™ EDI Technology

- No concentrate recirculation or brine injection
- Thin-Cell efficient technology
- Thin-Concentrate non-scaling technology
- Unique non-scaling electrode system
- Patented Excellion™ membranes

## EDI Training and OEM System Design Support

- SnowPure believes strongly in training—this helps ensure field success with Electropure™ EDI systems.
- SnowPure assists new OEM customers through their system design phase.
- Our customers also have access to our Best Practices P&ID's to aid in their EDI system optimization.
- Combined with ongoing Technical Service, we help ensure success.
